Steve Pomerantz, PhD

PROFESSIONAL CREDENTIALS

Steve Pomerantz is the president of Steve Pomerantz LLC. The firm provides economic and investment management consulting, economic damage assessment and litigation support on cases involving: investment management fees and practices; tax shelters; securities and investment-related damages; investment performance and suitability; event studies; asset allocation analysis and options; derivatives and swap valuation.

Steve Pomerantz holds a Ph.D. in mathematics from the University of California at Berkeley and has twenty-five years of experience in investment research, financial modeling, derivative structuring, statistics, portfolio and risk management.

Dr. Pomerantz has been qualified as an expert witness in numerous securities-related matters in various jurisdictions, providing litigation support to accountants and attorneys. His experience in litigation has been in cases involving trust management, investment suitability, derivative valuation, investment strategy analysis, economic damages, tax shelters, mutual funds and investment industry practice.

The firm is often called upon to use sophisticated mathematical techniques to develop models for valuation, damages and suitability analysis. Dr. Pomerantz is well versed in applications of operations research, statistics, probability and time-series analysis to provide solutions within a variety of assignments.

Strong verbal and communication skills enable Dr. Pomerantz to reduce complex securities, investments and financial topics to simple and accurate frameworks. He has taught as an adjunct professor at the undergraduate and graduate level in mathematics, operations research and finance.

His experience in the investment management area has served a variety of firms and clients in areas as diverse as derivative structuring, quantitative research, due diligence, portfolio and risk management. This experience coupled with his academic training provides a perspective that is grounded in scientific rigor yet possesses the practical realities of how the business of finance operates.
